

# LabVikar ApS is the total solution for all laboratory related areas all over Denmark which need extra hands in the lab

Dental laboratories, food laboratories, biotech laboratories, hospital laboratories and all other types of laboratories. We also service companies who need sales people with a laboratory background, groups which require persons with know how and insight into laboratory related areas for administrative positions and many other kinds of customers.

According to our concept you may at any time call LabVikar ApS when you need extra staff who in one way or another are rooted in the laboratory world. Whether you need staff for short temporary positions or for permanent positions. Among our candidates you will find more than 20 different groups of staff from the laboratory world.

LabVikar ApS has all types of staff ranging from laboratory assistants and technicians to process technologists, engineers and pharmaceutical staff, different dental experts and various academic groups. As something completely new, we now also have Medical Secretaries at LabVikar ApS. Also including a single Ethical Biochemist and other exciting technical persons.

A long time ago we rounded candidate number 1,000 – and everybody is on their toes for the many attractive laboratory positions around the country. Clients as well as candidates are kept completely anonymous until the perfect match is in place and a personal meeting have been booked. Please contact us at [kunde@labvikar.dk](mailto:kunde@labvikar.dk) for a written, noncommittal offer.

You can find more information about us on our homepage, where we also have a photo-case from LabVikar's success with courses in blood sampling. And the success continues...

Please come visit our booth at ScanLab 2008 (C2 K12) in Bella Center, Copenhagen, and learn more about our new initiatives within upgrading of own candidates for peak load areas. Tickets for the fair can be obtained on: [kunde@labvikar.dk](mailto:kunde@labvikar.dk)
